OBJECTIVE

*My goal is to obtain a Front End Web Developer position where I can contribute my experience in building functional web platforms, support company products, and sustain brand awareness.*

EXPERIENCE

**Graphic Artist & Web developer  
Freelance, 2014-Present**

Custom web creation from concept to development for businesses and personal blogs  
Create custom graphics, web page mock-ups, and assist with domain set up and launch  
Create advertisements, logos, business cards and marketing materials  
Provide WordPress customization (non-php), page creation, maintenance and support  
Photo retouching and post production work  
Notable clients include: Nixon, DuddleNow, Cathedral Catholic HS, San Diego Humane Society, Tech San Diego

**Front End Web Developer  
Processing Point, 2016**

Design and develop clear and effective web pages for the company's cloud based software while ensuring web design integrity, user experience and multiple browser compatibility  
Ensure "pixel perfect" interpretation of Photoshop files to web pages upon approved designs  
Fully test and troubleshoot own and group work, ensuring error free, high quality results  
Produce design mock-ups using PhotoShop and Illustrator for web concepts and present work to executive team for approval  
Work on multiple projects at the same time while making on the fly edits to existing pages

**Project Manager  
SupplyPro Inc, 2013 - 2016**

Facilitate the implementation of SupplyPro systems at a client site by preparing project plans, defining scope, allocating resources, all while adhering to a time line and budget.  
Analyze client data and customize SupplyPro software features to achieve desired output  
Step the customer through the implementation project and provide software training  
Establish and maintain key account-client relationships in order to increase client success and greater potential for expansion

**Account Manager  
DPI Specialty Foods, 2004 - 2013**

Progressively increase product sales using DPI Specialty Food sales programs, vendor incentives, and literature  
Plan, coordinate, and execute all product implementation project details with retailers, vendors and our internal operations within a planned timeline and under an allotted budget  
Negotiate pricing while maintaining outstanding relationship with 9 major accounts; servicing up to 13 category departments per account

ACHIEVEMENTS

Professional Certificate in Graphic Art & Web Design, University of California San Diego  
Associates Degree of Liberal Arts, Mira Costa College  
Volunteer Firefighter 2009-2011, Rainbow Valley FD  
Squad Leader, Fire Academy class 09-02
